Elizabeth A. Moniz

While the warmth of a South Coast summer may seem like a distant speck on the horizon, we are pleased to announce Clambake XXVIII, to be held once again at the side of the sea, here in the southern reaches of Dartmouth.

We invite you to be part of our team of highly regarded sponsors this year. Enjoy an unforgettable evening with your valued business associates, potential customers, and friends while supporting a worthy cause that is working to protect the fragile nature of our spectacular coast.

In keeping with tradition, this year's event is set for the second Friday in July – July 12, 2013. It will be the 28th edition of the Clambake, which has come to be known as *"Simply, the best!"* and which, for many, marks the start of the summer season.

Over the years, exceptionally favorable demographics have made the Clambake the sponsorship of choice for smart business leaders, seeking to raise their profiles in this high-potential market.

We very much appreciate your support in past years and believe that the added exposure as a Corporate Sponsor offers an exciting opportunity to showcase your business and the products and services you provide, to a very influential audience of up to 750 key South Coast residents.

Today, the Center is working to protect nature through research and education. Our teaching staff brings outstanding environmental science programs to a record number of area schools, reaching as many as 15,000 children in a year.

We thank you for supporting an organization that is truly making a difference!

  
Robert A. MacGregor  
Co-Chair – Corporate Sponsorship

  
Eric A. Braitmayer  
Co-Chair – Corporate Sponsorship

**CLAMBAKE XXVIII** (*"Simply, the best!"*) **Friday, July 12, 2013**

Founded in 1978 and situated with its headquarters and Hardscrabble Nature Preserve overlooking the Slocum River estuary in Dartmouth, Massachusetts, the Lloyd Center for the Environment has achieved a well earned reputation for excellence in environmental research and education. Through its outreach programs, it has established itself as a highly regarded leader in the ongoing effort to raise awareness of the area's fragile natural resources and the importance of protecting them.
